

# Worm Composting 101

## A Family Friendly Workshop!

At this hands-on workshop you will learn how to turn your food scraps into garden compost using red wiggler worms. Learn everything you need to know about worm composting AND take home your own worm bin full of red wiggler worms!

Worm composting is a great way to turn food waste into compost for your garden or houseplants, or even to raise worms for fishing. It's easy and fun for the whole family. Even if you live in an apartment you can have a worm bin.

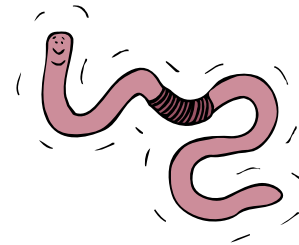

Bring your kids! We provide child care with fun and educational activities.

*Taught by Elizabeth Bryant, Certified Master Composter and OSU Master Gardener*

**Saturday, July 18, 2009**

**10am to 12pm**

**Zenger Farm, 11741 SE Foster Road, Portland, OR, 97266**
